48-hour report of Independent Expenditures

Dear Mr. Tarzi:

I write concerning the committee's 48-hour reports filed during the month of October, 2012. On October 23, 2012 the committee filed a 48-hour report of independent expenditures in the amount of \$74,697.08. On October 29, 2012 the committee also filed a 48-hour report of independent expenditures in the same amount of \$74,697.08. Due to confusion between the date of public dissemination and the payment date the later report was filed in error and should be disregarded. The report filed on October 23, 2012 was the correct filing for this activity.

Thank you.
